UNAUDITED INTERIM FINANCIAL STATEMENTS

In accordance with National Instrument 51-102 released by the Canadian Securities Administrators, the Company discloses that its auditors have not reviewed the unaudited financial statement for the period ended February 28, 2007.

NOTICE TO READER

The interim balance sheet as at February 28, 2007 and the interim statements of loss and deficit, and the interim statements of cash flows for the six-month period then ended are the responsibility of the Company's management.

These financial statements have not been reviewed on behalf of the shareholders by the independent external auditors of the Company, Morgan and Company.

The interim financial statements have been prepared by management and include the selection of appropriate accounting principles, judgments and estimates necessary to prepare these financial statements in accordance with Canadian Generally Accepted Accounting Principles.

RESOLVE VENTURES INC.

NOTES TO INTERIM FINANCIAL STATEMENTS

FEBRUARY 28, 2007

1. GOING CONCERN

These financial statements have been prepared on the basis of accounting principles applicable to a “going concern”, which assume that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

Several adverse conditions and events cast substantial doubt upon the validity of this assumption. The Company has incurred significant losses over several years as a result of administrative expenses and the write off of costs incurred on unprofitable resource properties. In addition, there are questions as to whether the Company will have enough working capital to meet future administrative and property expenditures. The Company's continued existence is dependent upon its ability to obtain additional financing and achieving future profitable production from existing resource properties or proceeds from the disposition thereof.

These financial statements do not reflect adjustments that would be necessary if the “going concern” assumption were not appropriate. Management believes that the actions already taken or planned will mitigate the adverse conditions and events which raise doubts about the validity of the “going concern” assumption used in preparing these financial statements.

If the “going concern” assumption were not appropriate for these financial statements, then adjustments would be necessary in the carrying values of assets and liabilities, the reported revenues and expenses, and the balance sheet classifications used.

2. NATURE OF OPERATIONS

The Company's principal operations are the exploration of mineral properties in the Raglan area of Northern Quebec, Canada (Note 4).

During the year ended August 31, 2006, the Company consolidated its capital on a 10 old for 1 new basis. The name of the Company and the number of authorized common shares remain unchanged.

The number of shares and issue and exercise prices per share in these financial statements have been restated to reflect the share consolidation.

RESOLVE VENTURES INC.

NOTES TO INTERIM FINANCIAL STATEMENTS

FEBRUARY 28, 2007

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Mineral Properties, and Deferred Exploration and Development Costs

Costs and Amortization

Mineral properties, including options to mineral claims, are stated at cost. The recorded cost of mineral properties and exploration and development interests is based on cash paid and assigned value, if any, of share considerations given for mineral properties and exploration and development costs incurred.

All direct and indirect costs relating to the acquisition of mineral properties are capitalized on the basis of specific claim blocks or areas of geological interest until the properties to which they relate are placed into production, sold or when management has determined that there is an impairment in the carrying values of those mineral properties.

The Company defers expenditures directly attributable to the exploration and development of mineral properties, pending a decision as to the commercial viability of a property. At such times as the Company loses or abandons title on its interest in the property, the accumulated expenditures on such property are charged to operations. If any property reaches commercial production, the applicable costs of the mineral property and the deferred exploration and development expenditures will be amortized against related production revenues on the unit of production method, based on the property's estimated reserves.

Values

Based on the information available to date, the Company has not yet determined whether the mineral properties it is exploring and developing contain economically recoverable reserves. The recoverability of the amounts capitalized as mineral properties and deferred exploration and development costs is dependent upon the confirmation of economically recoverable reserves, the ability of the Company to obtain necessary financing to successfully complete its exploration and development programs and upon future profitable production.

The amounts shown for mineral properties and deferred exploration and development expenses represent costs incurred to date, and do not necessarily represent present or future values as they are entirely dependent upon various factors as noted above.

Cost of Maintaining Mineral Properties

The Company does not accrue the estimated future costs of maintaining its mineral properties in good standing.

RESOLVE VENTURES INC.

NOTES TO INTERIM FINANCIAL STATEMENTS

FEBRUARY 28, 2007

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

a) Mineral Properties, and Deferred Exploration and Development Costs (Continued)

Environmental Protection and Rehabilitation Costs

Presently, the Company does not foresee the necessity to make any material expenditure in this area; as a result, no amounts have been accrued for future site restoration costs.

b) Income Taxes

Income taxes are recorded using the liability method of tax allocation. Future income taxes are calculated based on temporary timing differences arising from the difference between the tax basis of an asset or liability and its carrying value using tax rates anticipated to apply in the periods when the timing differences are expected to reverse. The recognition of future income tax assets is limited to the amount that is more likely than not to be realized.

c) Loss Per Share

Basic loss per common share is computed by dividing losses by the weighted average number of common shares outstanding for the year. Diluted per share amounts reflect the potential dilution that could occur if securities or other contracts to issue common shares were exercised or converted to common shares. The treasury stock method is used to determine the dilutive effect of stock options and other dilutive instruments. Under the treasury stock method, only instruments with exercise amounts less than market prices impact the diluted calculations. In computing diluted loss per share, no shares were added to the weighted average number of common shares outstanding during the six months ended February 28, 2007 for the dilutive effect of employee stock options and warrants as they were all anti-dilutive. No adjustments were required to report loss from operations in computing diluted per share amounts.

d) Stock Option Plan

The Company accounts for all grants of options to employees, non-employees, and directors in accordance with the fair value method of accounting for stock based compensation pursuant to CICA Handbook Section 3870 – “Stock Based Compensation and Other Stock Based Payments”.

RESOLVE VENTURES INC.

NOTES TO INTERIM FINANCIAL STATEMENTS

FEBRUARY 28, 2007

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e) Foreign Currency Translation

Transactions denominated in foreign currencies are translated to Canadian dollars using the temporal method. Under this method, monetary assets and liabilities are translated at current rates of exchange and other assets and liabilities are translated at historical rates of exchange. Revenues and expenses are translated at average rates of exchange for the year, except for amortization and depletion which are translated at rates in effect when the related assets were acquired. All exchange gains and losses are recognized currently in earnings.

f) Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions which affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from and affect the results reported in these financial statements.

g) Flow-through Financing

The Company has financed a portion of its exploration activities through the issue of flow-through shares which transfer the tax deductibility of exploration expenditures to the investor. Proceeds received on the issue of such shares have been credited to share capital and the related exploration costs have been charged to mineral property deferred exploration costs. When transferring the tax deductibility of exploration expenditures to the investor (renunciation), future income tax recovery income has been recognized and share capital has been reduced accordingly.

h) Asset Retirement Obligations

The Company has adopted the CICA Handbook Section 3110 "asset retirement obligations" which establishes standards for the recognition, measurement and disclosure of liabilities for asset retirement obligations and the associated asset retirement costs. The standards apply to legal obligations associated with the retirement of long-lived tangible assets that arise from the acquisition, construction, development or normal operation of such assets. The standards require that a liability for an asset retirement obligation be recognized in the period in which it is incurred and when a reasonable estimate of the fair value of the liability can be made. Furthermore, a corresponding asset retirement cost should be recognized by increasing the carrying amount of the related long-lived asset. The asset retirement cost is subsequently allocated in a rational and systematic method over the underlying asset's useful life. The initial fair value of the liability is accreted, by charges to operations, to its estimated nominal future value.

RESOLVE VENTURES INC.

NOTES TO INTERIM FINANCIAL STATEMENTS

FEBRUARY 28, 2007

4. MINERAL PROPERTIES

Ungava Acrex Property

During the year ended August 31, 2005, the Company entered into an agreement with Acrex whereby the Company will acquire a 100% interest in and to 150 mineral claims. The claims consist of approximately 15,350 acres located in the Ungava area, Province of Quebec.

In consideration of the acquisition, the Company issued 50,000 of its common shares to Acrex and made a cash payment of \$65,000.

This Agreement replaces a September 19, 2003 option agreement previously granted to the Company by Acrex to earn up to a 70% interest in the Property. The Agreement further provides that Acrex will retain a 3% net smelter return royalty on any mineral production from the Property. The Company has the option to purchase up to 2-1/2% of the royalty, at a price of \$500,000 per one-half percent.

The Company paid a \$13,788 finder's fee, upon completion of phase one work program with regards to the September 19, 2003 option agreement, in January 2005.

At the time of signing the September 19, 2003 option agreement, the finder's fee due to D. Baker Capital Inc. was an arms' length transaction. On January 8, 2004, David Baker, the sole director of D. Baker Capital Inc., became the president and a director of the Company.

Costs related to the Ungava Acrex Property are as follows:

	BALANCE FEBRUARY 28 2007	ADDITIONS	BALANCE AUGUST 31 2006

FEBRUARY 28, 2007

4. MINERAL PROPERTIES (Continued)

Ungava Ubex Property

The Company entered into a purchase agreement with Ubex Capital Inc. and Menace Capital Corp. ("vendors") dated September 22, 2003 whereby the Company may acquire a 100% interest in four mineral properties covering approximately 25,610 acres in the Ungava region of Northern Quebec. To earn the interest in the property, the Company must pay \$15,000 upon signing of the letter of intent (paid), pay \$35,000 (paid) and issue 50,000 common shares (issued) of the Company upon approval of the agreement by the TSX Venture Exchange. The agreement received regulatory approval on January 19, 2004. The vendors will retain a 1% net smelter return royalty on any future mineral production from the properties.

Costs related to the Ungava Ubex Property are as follows:

	BALANCE FEBRUARY 28 2007	ADDITIONS	BALANCE AUGUST 31 2006
Acquisition costs			
Shares (50,000 at \$2.00)	\$ 100,000	\$ -	\$ 100,000

Ungava Scott Property

On January 12, 2004, the Company acquired additional claims in the Ungava Belt in northern Quebec (also referred to as the Raglan District). The new acquisition comprises 54,952 acres. To acquire a 100% interest in the claims, the Company must pay \$50,000 in cash (paid) and issue 10,000 (issued) shares on Exchange approval. The TSX Venture Exchange approved the transaction on February 4, 2004.

Klu Property

On September 1, 2005, the Company entered into an agreement to acquire 100% of the Klu Property Mineral Claims located in Southwestern Yukon. The Company acquired the property from Inco Limited ("Inco") for a cash payment of \$50,000 and \$50,000 worth of the Company's shares. The property is subject to a 2% net smelter return held by FNX Mining Company Inc.

The Company made the cash payment of \$50,000 and issued 119,047 common shares to Inco at \$0.42 per share. The Company also paid a \$10,000 finder's fee.

Shoot Out Property

The Company entered into an option agreement with Golden Valley Mines Ltd. ("Golden") dated August 29, 2003 whereby the Company may earn a 50% interest in certain mining claims located in the Lac Dumas and Lac Forcier Townships of Northern Quebec. The option is subject to Golden first acquiring a 100% interest in and to the property by fulfilling the terms of an option agreement entered into by Golden and the mineral rights holder. Effective on the date on which Golden acquires a 100% interest in the Property, the Company will receive an exclusive option to acquire an undivided 50% interest in the Property by:

- i) issuing 50,000 common shares to Golden (issued).
- ii) paying \$100,000 to Golden as follows:
 - \$20,000 upon regulatory approval (paid);
 - \$20,000 by November 29, 2003 (paid);
 - \$30,000 by May 29, 2004 (paid);
 - \$30,000 by May 29, 2005 (paid);

RESOLVE VENTURES INC.

4. MINERAL PROPERTIES (Continued)

Shoot Out Property (Continued)

iii) incurring exploration expenditures in the aggregate amount of \$2,000,000 as follows:

- \$350,000 by December 31, 2003 (completed);
- an additional \$550,000 on or before December 31, 2004 (completed);
- an additional \$1,100,000 on or before December 31, 2005.

The Company received regulatory approval for the transaction on September 9, 2003. The Company paid a \$44,250 finder's fee with regard to the option agreement (included as part of acquisition costs). The Company paid an additional \$43,500 finder's fee in December 2004 pursuant to an August 29, 2003 finder's fee agreement.

At the time of signing the agreement, the finder's fee due to D. Baker Capital Inc., was an arms' length transaction. On January 8, 2004, David Baker, the sole director of D. Baker Capital Inc., became the president and a director of the Company.

On June 16, 2005, the Company announced that it had decided to discontinue its joint venture arrangement with Golden Valley. Accordingly, the Shoot Out property has been written off.

NOTES TO INTERIM FINANCIAL STATEMENTS

FEBRUARY 28, 2007

4. MINERAL PROPERTIES (Continued)

Mineral Exploration Credits

As a result of the Company incurring exploration expenditures on its Quebec mineral properties, the Company applied for and received the Province of Quebec government tax credits. The Company is still expecting the following credits and includes them in tax credit and mining duties recoverable:

2006 Quebec Corporate Tax Credit	<u>\$ 208,708</u>
2005 Quebec mining duties credit	39,040
2006 Quebec mining duties credit	<u>39,063</u>
	<u>78,103</u>
Total refundable tax credits and mining duties	<u>\$ 286,811</u>

The amounts received and expected are allocated to the respective Quebec properties based upon proportionate costs incurred on the properties.

5. RELATED PARTY TRANSACTIONS

Transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

During the six months ended February 28, 2007 and 2006, the Company entered into the following transactions with directors of the Company or companies controlled by them:

	<u>2007</u>	<u>2006</u>
Management fees	\$ 29,250	\$ 12,600
Fees for consulting services	\$ 9,250	\$ 3,000
Management and consulting fees allocated to deferred exploration costs	\$ -	\$ 4,250
Website maintenance	\$ 2,750	\$ -

NOTES TO INTERIM FINANCIAL STATEMENTS

FEBRUARY 28, 2007

5. RELATED PARTY TRANSACTIONS (Continued)

Prepaid expenses include \$5,428 (2006 - \$Nil) paid to a company controlled by an immediate family member of a director for future rent, furniture, and leasehold expenses.

Accounts payable and accrued liabilities include \$1,013 (2006 - \$1,013) due to a director.

6. CONVERTIBLE PROMISSORY NOTES

	<u>2007</u>	<u>2006</u>
Convertible promissory notes	\$ 130,000	\$ 130,000
Equity portion of convertible promissory notes	(40,742)	(40,742)
	89,258	89,258
Interest accretion	40,742	32,640
	\$ 130,000	\$ 121,898

The convertible promissory notes bear interest at 11% calculated monthly, and the interest is payable every six months over the term of the notes. The notes are unsecured and, along with accrued interest, are convertible at the option of the holder at \$2.50 per share at any time until February 7, 2007. The Company is obligated to pay all principal and accrued interest in full on February 7, 2007; however, if the Company chooses, it may pay up to 50% of the outstanding principal within the first year, up to 75% of the principal during the second year, up to 87.5% of the principal during the third year, and up to 93.75% of the principal during the fourth year of the notes. As at February 28, 2007, the Company has not yet paid any of the principal and interest.

The liability component of the convertible debt is calculated as the present value of the principal, discounted at a rate approximating the interest rate that was estimated would have been applicable to non-convertible debt at the time the debt was issued. This portion of the convertible debt is accreted over its term to the full face value by charges to interest expense. The accretion is a non-cash transaction and has been excluded from the statement of cash flows.

The equity element of the convertible debt comprises the value of the conversion option, being the difference between the face value of the convertible debt and the liability element already calculated.

7. SHARE CAPITAL (Continued)

c) Options Outstanding

During the year ended August 31, 2005, the TSX Venture Exchange accepted the Company's amended Stock Option Plan, which was approved by the Company's shareholders at the Annual General Meeting. The Company implemented a rolling stock option plan whereby a maximum of 10% of the issued shares will be reserved for issuance under the plan.

During the six months ended February 28, 2007 and 2006, there were no stock options granted, exercised or outstanding for the purchase of common shares.

8. NON-CASH TRANSACTIONS

During the six months ended February 28, 2007 and 2006, investing and financing activities that do not have a direct impact on current cash flows are excluded from the statements of cash flows as follows:

	<u>2007</u>	<u>2006</u>
119,047 common shares issued at \$0.42 per share in respect of Klu property acquisition payment	-	\$ 50,000
	<u>-</u>	<u>\$ 50,000</u>

9. FINANCIAL INSTRUMENTS

The Company has estimated the fair value of its financial instruments, which consist of cash, accounts payable and accrued liabilities, related party loans payable, loans payable and principal and interest portions of promissory notes payable. The Company used valuation methodologies and market information available as at year end and has determined that the carrying amounts of such financial instruments approximate fair value. It is management's opinion that the Company is not exposed to significant interest, credit or foreign currency risks arising from these financial instruments, except as noted below.

The Company's promissory notes detailed in Note 6 are all convertible at the option of the holders into common shares of the Company and are issued with interest payable at rates less than normal market rates under similar conditions without the conversion feature.

Therefore, should the holders of such debentures not elect to exercise their conversion rights, replacement funds may not be available to repay the debentures on their respective maturity dates or refinance the debentures at equivalent rates. No reliable estimate can be made as to the financial amount of such risk.
