1.4 Results of Operations

Discussion of Acquisitions, Operations and Financial Condition

The following should be read in conjunction with the financial statements of the Company and notes attached thereto.

Mineral Properties Acquired

The Company had the following mineral property interests in Northern Quebec and Southwestern Yukon:

Ungava Acrex Property

During the year ended August 31, 2005, the Company entered into an agreement with Acrex Ventures Ltd. ("Acrex") whereby the Company will acquire a 100% interest in and to 150 mineral claims. The claims consist of approximately 15,350 acres located in the Ungava area, Province of Quebec.

In consideration of the acquisition, the Company issued 50,000 of its common shares to Acrex and made a cash payment of \$65,000.

This Agreement replaces a September 19, 2003 option agreement previously granted to the Company by Acrex to earn up to a 70% interest in the Property. The Agreement further provides that Acrex will retain a 3% net smelter return royalty on any mineral production from the Property. The Company has the option to purchase up to 2-1/2% of the royalty, at a price of \$500,000 per one-half percent.

The Company paid a \$13,788 finder's fee, upon completion of phase one work program with regards to the September 19, 2003 option agreement, in January 2005.

At the time of signing the September 19, 2003 option agreement, the finder's fee due to D. Baker Capital Inc. was an arms' length transaction. On January 8, 2004, David Baker, the sole director of D. Baker Capital Inc., became the president and a director of the Company.

Exploration Results & Future Developments:

The 2006 exploration program included a major helicopter-supported airborne geophysical survey and minor geological mapping and mineral prospecting surveys of priority targets. Numerous electromagnetic and magnetic anomalies were identified from the airborne survey for follow-up field work in 2007. No significant nickel assays were returned for rock samples from the mapping and prospecting surveys.

Ungava Ubex Property

The Company entered into a purchase agreement with Ubex Capital Inc. and Menace Capital Corp. ("vendors") dated September 22, 2003 whereby the Company may acquire a 100% interest in four mineral properties covering approximately 25,610 acres in the Ungava region of Northern Quebec. To earn the interest in the property, the Company must pay \$15,000 upon signing of the letter of intent (paid), pay \$35,000 (paid) and issue 50,000 common shares (issued) of the Company upon approval of the agreement by the TSX Venture Exchange. The agreement received regulatory approval on January 19, 2004. The vendors will retain a 1% net smelter return royalty on any future mineral production from the properties.

Exploration Results & Future Developments:

The 2006 exploration program included a major helicopter-supported airborne geophysical survey and minor geological mapping and mineral prospecting surveys of priority targets. Numerous electromagnetic and magnetic anomalies were identified from the airborne survey for follow-up field work in 2007. No significant nickel assays were returned for rock samples from the mapping and prospecting surveys.

Ungava Scott Property

On January 12, 2004, the Company acquired additional claims in the Ungava Belt in northern Quebec (also referred to as the Raglan District). The new acquisition comprises 54,952 acres. To acquire a 100% interest in the claims, the Company must pay \$50,000 in cash (paid) and issue 10,000 (issued) shares on Exchange approval. The TSX Venture Exchange approved the transaction on February 4, 2004.

Exploration Results & Future Developments:

The 2006 exploration program included a major helicopter-supported airborne geophysical survey and minor geological mapping and mineral prospecting surveys of priority targets. Numerous electromagnetic and magnetic anomalies were identified from the airborne survey for follow-up field work in 2007. No significant nickel assays were returned for rock samples from the mapping and prospecting surveys.

Ungava West Property

The Company staked additional claims known as Ungava West. The Company staked (registered) a total of 342 units, totaling 14,222 hectares (35,143 acres) immediate west of the Company's main block of claims in the Raglan district.

Exploration Results & Future Developments:

The 2006 exploration program included a major helicopter-supported airborne geophysical survey and minor geological mapping and mineral prospecting surveys of priority targets. Numerous electromagnetic and magnetic anomalies were identified from the airborne survey for follow-up field work in 2007. No significant nickel assays were returned for rock samples from the mapping and prospecting surveys.

Klu Property:

On September 1, 2005, the Company entered into an agreement to acquire 100% of the Klu Property Mineral Claims located in Southwestern Yukon. The Company acquired the property from Inco Limited ("Inco") for a cash payment of \$50,000 and \$50,000 worth of the Company's shares. The property is subject to a 2% net smelter return held by FNX Mining Company Inc.

The Company made the cash payment of \$50,000 and issued 119,047 common shares to Inco at \$0.42 per share. The Company also paid a \$10,000 finder's fee.

Exploration Results & Future Developments:

The Klu property was assessed in view of exploration work completed to date. Work was not carried out during 2006. The majority of the claims were relinquished, although 29 claims related to the Spy showing were retained.

Shoot Out Property

The Company entered into an option agreement with Golden Valley Mines Ltd. ("Golden") dated August 29, 2003 whereby the Company may earn a 50% interest in certain mining claims located in the Lac Dumas and Lac Forcier Townships of Northern Quebec. The option is subject to Golden first acquiring a 100% interest in and to the property by fulfilling the terms of an option agreement entered into by Golden and the mineral rights holder. Effective on the date on which Golden acquires a 100% interest in the Property, the Company will receive an exclusive option to acquire an undivided 50% interest in the Property by:

- i) issuing 50,000 common shares to Golden (issued).
- ii) paying \$100,000 to Golden as follows:
 - \$20,000 upon regulatory approval (paid);
 - \$20,000 by November 29, 2003 (paid);
 - \$30,000 by May 29, 2004 (paid);
 - \$30,000 by May 29, 2005 (paid);
- iii) incurring exploration expenditures in the aggregate amount of \$2,000,000 as follows:
 - \$350,000 by December 31, 2003 (completed);
 - an additional \$550,000 on or before December 31, 2004 (completed);
 - an additional \$1,100,000 on or before December 31, 2005.

The Company received regulatory approval for the transaction on September 9, 2003. The Company paid a \$44,250 finder's fee with regard to the option agreement (included as part of acquisition costs). The Company paid an additional \$43,500 finder's fee in December 2004 pursuant to an August 29, 2003 finder's fee agreement.

At the time of signing the agreement, the finder's fee due to D. Baker Capital Inc., was an arms' length transaction. On January 8, 2004, David Baker, the sole director of D. Baker Capital Inc., became the president and a director of the Company.

On June 16, 2005, the Company announced that it had decided to discontinue its joint venture arrangement with Golden Valley. Accordingly, the Shoot Out property has been written off.

Discussion of Operations and Financial Condition

Results of Operations

The net loss for the six months ended February 28, 2007 was \$174,647 as compared with a net loss of \$100,269 for the six months ended February 28, 2006. During the six months, shareholders' communication expenses, travel expenses, conferences and shows expenses, and regulatory and filing fees decreased due to fewer activities relating to investors' relations.

Investor Relations Activities

Currently, the Company has no formal arrangements in place with respect to investor relations. The directors and two consultants act as the spokespersons responding to any shareholder or investor calls. During the period, the Company issued press releases, responded to investor inquiries and conducted shareholder and investor mail outs. The shareholder communication expenses were all related to mail-outs and website maintenance, and various attendances in conferences and trade shows.

Financings, Principal Purposes & Milestones

During the six months ended February 28, 2007, there was no financing activity performed by the Company.

1.5 Summary of Quarterly Results

The following is a summary of the Company's financial results for the eight most recently completed quarters:

	<u>Q2</u> <u>28-Feb-</u> <u>07</u>	<u>Q1</u> <u>30-Nov-</u> <u>06</u>	<u>Q4</u> <u>31-Aug-</u> <u>06</u>	<u>Q3</u> <u>31-May-</u> <u>06</u>	<u>Q2</u> <u>28-Feb-</u> <u>06</u>	<u>Q1</u> <u>30-Nov-</u> <u>05</u>	<u>Q4</u> <u>31-Aug-</u> <u>05</u>	<u>Q3</u> <u>31-May-</u> <u>05</u>

1.6 Liquidity

As the Company has no revenue generating projects at this time, the ability of the Company to carry out its business plan rests with its ability to secure equity and other financings. At February 28, 2007, the Company's working capital was \$17,801 compared to a working capital of \$227,816 at the year ended August 31, 2006.

The Company will require additional financing to fund any new acquisitions, exploration programs as well as its holding costs on all of its properties. The ability of the Company to successfully fund the Ungava and Klu properties and to acquire additional projects is conditional on its ability to secure financing when required. The Company proposes to meet any additional financing requirements through the exercise of outstanding warrants, or arranging other forms of equity financing. In light of the continually changing financial markets, there is no assurance that funding by equity subscriptions will be possible at the times required or desired by the Company.

1.7 Capital Resources

The only capital resources of the Company are its mineral properties, with a historical cost of \$1,318,881. The Company is committed to further expenditures on its properties, as detailed in Section 1.4 Results of Operations.

1.8 Off Balance Sheet Arrangements

There are no off-balance sheet arrangements to which the Company is committed.

1.9 Transactions with Related Parties

Transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

During the six months ended February 28, 2007 and 2006, the Company entered into the following transactions with directors of the Company or companies controlled by them:

	<u>2007</u>	<u>2006</u>
Management fees	\$ 29,250	\$ 12,600
Fees for consulting services	\$ 9,250	\$ 3,000
Management and consulting fees allocated to deferred exploration costs	\$ -	\$ 4,250
Website maintenance	\$ 2,750	\$ -

Prepaid expenses include \$5,428 (2006 - \$Nil) paid to a company controlled by an immediate family member of a director for future rent, furniture, and leasehold expenses.

Accounts payable and accrued liabilities include \$1,013 (2006 - \$1,013) due to a director.

1.10 Second Quarter

The second quarter results do not differ significantly from other quarters.

1.11 Proposed Transactions

1.14 Financial and Other Instruments

The carrying value of cash and cash equivalents and accounts payable approximate their fair values due to the short maturity of those instruments.

The Company has outstanding convertible promissory notes which bear interest at 11% calculated monthly, and the interest is payable every six months over the term of the notes. The notes are unsecured and, along with accrued interest, are convertible at the option of the holder at \$2.50 per share at any time until February 7, 2007. The Company is obligated to pay all principal and accrued interest in full on February 7, 2007; however, if the Company chooses, it may pay up to 50% of the outstanding principal within the first year, up to 75% of the principal during the second year, up to 87.5% of the principal during the third year, and up to 93.75% of the principal during the fourth year of the notes. As at February 28, 2007, the Company has not yet paid any of the principal and interest.

The liability component of the convertible debt is calculated as the present value of the principal, discounted at a rate approximating the interest rate that was estimated would have been applicable to non-convertible debt at the time the debt was issued. This portion of the convertible debt is accreted over its term to the full face value by charges to interest expense. The accretion is a non-cash transaction and has been excluded from the statement of cash flows.

Following is a summary of the convertible notes as of February 28, 2007:

	<u>2007</u>	<u>2006</u>
Convertible promissory notes	\$ 130,000	\$ 130,000
Equity portion of convertible promissory notes	(40,742)	(40,742)
	89,258	89,258
Interest accretion	40,742	32,640
	130,000	121,898
Debt portion of convertible promissory notes	\$ 130,000	\$ 121,898

The recoverability of the amounts capitalized for the mineral properties under exploration is dependent upon the determination of economically recoverable ore reserves, the ability to obtain the necessary financing to complete the development, and future profitable production or proceeds from the disposition thereof.
